PROJECTS

Portfolio:
https://teras43.github.io/reactPortfolio/

Movie Database — *Angular 11*
https://teras43.github.io/movieGroupProject/

I created an IMDB-like styled webapp that you can like, rate, and review movies that you see, as well as add them to specific lists for your own account.

E-Commerce App — *React*
https://teras43.github.io/eCommerceStore/

Here I made a mock e-commerce website akin to something along the lines of Amazon. I used a mock api that was set up for the data to display and react for the creation of the project.

Golf Scorecard — *Angular 11*
https://teras43.github.io/golf-scorecard-angular/

A scorecard for the game of golf created to be dynamic, responsive and with Angular 11. Also holds the functionality to save the current game and/or delete previous games.

Hangman — *JavaScript*
https://teras43.github.io/Hang-Man/

A simple game of hangman, stylized to look like it's being played on notebook paper and in a manilla type folder. Very simple and clean looking.

EDUCATION

Payson High, Payson UT — *High School Diploma*
AUG 2009 - MAY 2012

Graduation from Payson High School

Mountainland Technical College, Lehi UT — *Web Development & Programming*

EXPERIENCE

Lucille Games, Remote — *3D Artist*
NOV 2017 - APR 2018

Created 3D models for multiple games on the Roblox platform including weapons, armor, firearms, map assets, and skins for all the weapons, armor and firearms. I also assisted in polishing existing maps in the game, and creating new ones for multiple types of games. I used Roblox Studio, Blender and Adobe Photoshop.

ServerPlus, Provo UT — *Broadband Tech Support*
JUN 2015 - NOV 2015

In this role I would assist many customers per day as they called into us with issues regarding their DSL, Fixed Wireless or Broadband internet connections. I would go through and troubleshoot any issues with them and help resolve them in a timely manner.

Walmart, Springville / Payson UT — *Secondary ICS Supervisor & Overnight Inventory Control*
JUN 2012 - APR 2014 / MAY 2018 - JUL 2019

In this role I was the secondary manager for a team of employees who would be focused on unloading the freight trucks and getting the freight out to the sales floor so the next shift could stock it.

Overnights would consist of me being given an area to be in charge of and make sure all freight was stocked and area was cleaned before leaving.

ROI Solutions, Lehi UT — *Contact Collection*
APR 2014 - JUN 2014

Within this role I would call out to businesses in regards to their existing customer's want to switch to a Visa card for their payments.
